## PROFESSIONAL SUMMARY

---

Motivated and detail-oriented Front-End Developer with strong skills in React.js and modern web development. Experienced in building responsive, user-friendly, and visually engaging web applications with a strong focus on clean code, performance, accessibility, and seamless user experiences. Skilled in developing reusable and scalable components, interactive user interfaces, and modern web applications using Vue.js, React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.

Knowledgeable in component-based architecture, state management, responsive design, API integration, and modern UI/UX principles. Passionate about solving problems, learning emerging technologies, and transforming creative ideas into functional, high-quality digital solutions.

## KEY ACHIEVEMENTS

---

- Developed responsive and modern web applications using Vue.js, React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Designed and built user-friendly, visually engaging, and responsive interfaces with a strong focus on modern UI/UX principles.
- Created reusable and scalable components to improve code maintainability, consistency, and development efficiency.
- Successfully transformed UI/UX designs and creative concepts into functional, interactive web applications.
- Improved user experiences by implementing responsive layouts, smooth interactions, and accessible user interfaces across different devices.
- Worked on multiple web development and design projects, continuously improving skills in front-end development, component-based architecture, and modern web technologies.
- Demonstrated strong problem-solving skills and a commitment to learning emerging technologies and best practices in modern web development.

## TECHNICAL SKILLS

---

**Frontend Development:** Vue.js, React.js, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Bootstrap

**UI/UX Design:** Figma, Responsive Web Design, User Interface Design, User Experience Design, Wireframing, Prototyping

**Programming Languages:** JavaScript, HTML5, CSS3

**Frontend Concepts:** Component-Based Architecture, Reusable Components, State Management, Responsive Design, Cross-Browser Compatibility

**API & Integration:** RESTful APIs, API Integration, JSON, Third-Party API Integration

**Version Control:** Git, GitHub, GitHub Action

**Development Tools:** Visual Studio Code, npm, Vite, Chrome DevTools

**Graphic Design:** Adobe Photoshop, Adobe Illustrator, Canva, Branding, Digital Design

**Web Performance:** Performance Optimization, Clean Code, Accessibility, SEO Fundamentals

**Other Skills:** Problem Solving, Debugging, Team Collaboration, Agile Development, Modern Web Development

## PROFESSIONAL EXPERIENCE

---

**Junior Front-End Developer** | mycoderbros, Narowal, Pakistan  
Software Development & IT Services Company | 11–50 Employees

March 2024 - Present

- Developed responsive and user-friendly web pages using HTML5, CSS3, Tailwind CSS, and Vue.js.
- Built reusable and responsive Vue.js components to create clean and maintainable user interfaces.
- Created modular frontend components using Vue.js to improve code reusability and maintainability.
- Developed front-end pages and components using Vue.js based on project requirements.
- Converted Figma/UI designs into responsive and functional Vue.js interfaces based on project requirements.
- Worked on real-world projects to develop new features and enhance existing Vue.js web applications.
- Fixed basic front-end issues through debugging and testing and improved website responsiveness.
- Gained practical hands-on experience in developing modern web interfaces using HTML, CSS, Tailwind CSS, JavaScript, React.js, and Vue.js.

**UI/UX Designer** | mycoderbros, Narowal, Pakistan

*December 2023 - March 2024*

UI/UX Design Solutions | 18+ Employees

- Designed modern, intuitive, and user-centered interfaces in Figma, focusing on usability, visual consistency, and seamless user experiences.
- Developed and maintained design systems, reusable components, typography, color schemes, and visual
- Transformed business requirements and ideas into clear, engaging, and functional UI/UX designs from initial concepts through final prototypes.
- Conducted design improvements based on user needs, usability principles, feedback, and modern UI/UX trends.
- Utilized Figma for prototyping, component design, design collaboration, and developer handoff.

**Project: Car Parking Management System (C++ Languages).**

- Developed a C++-based Car Parking Management System to efficiently manage parking spaces, vehicle entries, and exits.
- Used object-oriented programming (OOP) concepts such as classes, objects, functions, encapsulation, and data.
- Implemented a user-friendly console-based interface for managing parking operations and displaying vehicle and parking information.
- Applied C++ programming and problem-solving techniques to create an efficient and reliable parking management solution.

**Graphic Designer** | mycoderbrs, Narowal, Pakistan

*July 2023 - December 2023*

Creative Design & Digital Solutions | 15+ Employees

- Created professional and visually engaging graphics for digital platforms, websites, social media, and marketing materials.
- Designed social media posts, banners, promotional graphics, presentations, and branding materials according to project requirements.
- Developed creative visual concepts and design layouts while maintaining consistency with brand identity and design guidelines.
- Used Adobe Photoshop, Adobe Illustrator, and Canva to produce high-quality digital designs and visual assets.
- Collaborated with developers and team members to create web graphics and UI elements that complemented modern websites and digital applications.
- Maintained attention to typography, color, spacing, composition, and visual hierarchy to deliver polished and professional designs.

## EDUCATION

**Bachelor's in Computer Science (Present)**

2024-2028

AL-Shifa Insititute of Health Sciences, Narowal

## LANGUAGES

English (Fluent) | Urdu (Fluent)
